

READY, SET, GET STARTED!

Have your team call our team.

To explore relocation and expansion call the Governor's Action Team (GAT): your site selection team's single point of contact. Everything you need to get rolling in Pennsylvania is here. We're an accessible, informed source for information and assistance. We help domestic and international business and site consultants with workforce characteristics, demographic data, permits and regulations, infrastructure and utility data, tax information, quality of life stats - we can even pinpoint the right location for your company.

Statewide since January 2003, the Governor's Action Team has successfully completed 876 projects resulting in commitments for the creation of 93,687 new jobs and the retention of more than 211,771 existing positions. The commonwealth has offered more than \$1.7 billion in assistance for these projects, which will leverage more than \$10.3 billion in additional investment.

PENNSYLVANIA IS READY WHEN YOU ARE @ newPA.com

For more information, visit newPA.com, or call our Customer Service Department at 1.866.466.3972 (+1 717.787.3405 for international callers). We can answer your questions, connect you with valuable resources, provide information on financing and tax incentives, and help you get your business off to a roaring success in Pennsylvania.

If you are seeking help with foreign direct investment and export opportunities, ask for The Office of International Business Development (OIBD). With representatives covering more than 49 countries, the OIBD can be a valuable resource for technical and marketing services, developing your export potential or expanding your current export base. The OIBD can also assist in attracting direct investment to Pennsylvania.

High Technology
is in a state
of innovation:

PENNSYLVANIA

> ready > set > succeed

COMPETITIVE ADVANTAGES. BY DESIGN.

Governor Rendell's \$2.8 billion stimulus package is the most comprehensive business development program in the country. (No wonder he was named 2006 Public Service Leader of the Year by the International Economic Development Council.)

IBM Business Consulting Services ranked Pennsylvania the #1 destination for new projects in 2005, and the top location for manufacturing projects in America.

ACADEMIC INSTITUTIONS WITH NEW TALENT, NEW TECHNOLOGY AND NEW IDEAS.

Forbes ranked seven of our schools among the most "connected campuses" in the nation. We have two prestigious universities in the top 10: University of Pennsylvania and University of Pittsburgh. And Morgan Quinto Press ranks us among the nation's "smartest states."

THE FASTEST GROWING STATE FOR INTERNATIONAL BUSINESS DEVELOPMENT. MORE CROSS-BORDER PROJECTS THAN ANY OTHER STATE.

We have the largest network of international offices, and more annual investment than any state. Our ideal location, vast transportation network, proximity to world financial and regulatory centers, and access to North American markets has attracted nearly 6,000 foreign-owned companies.

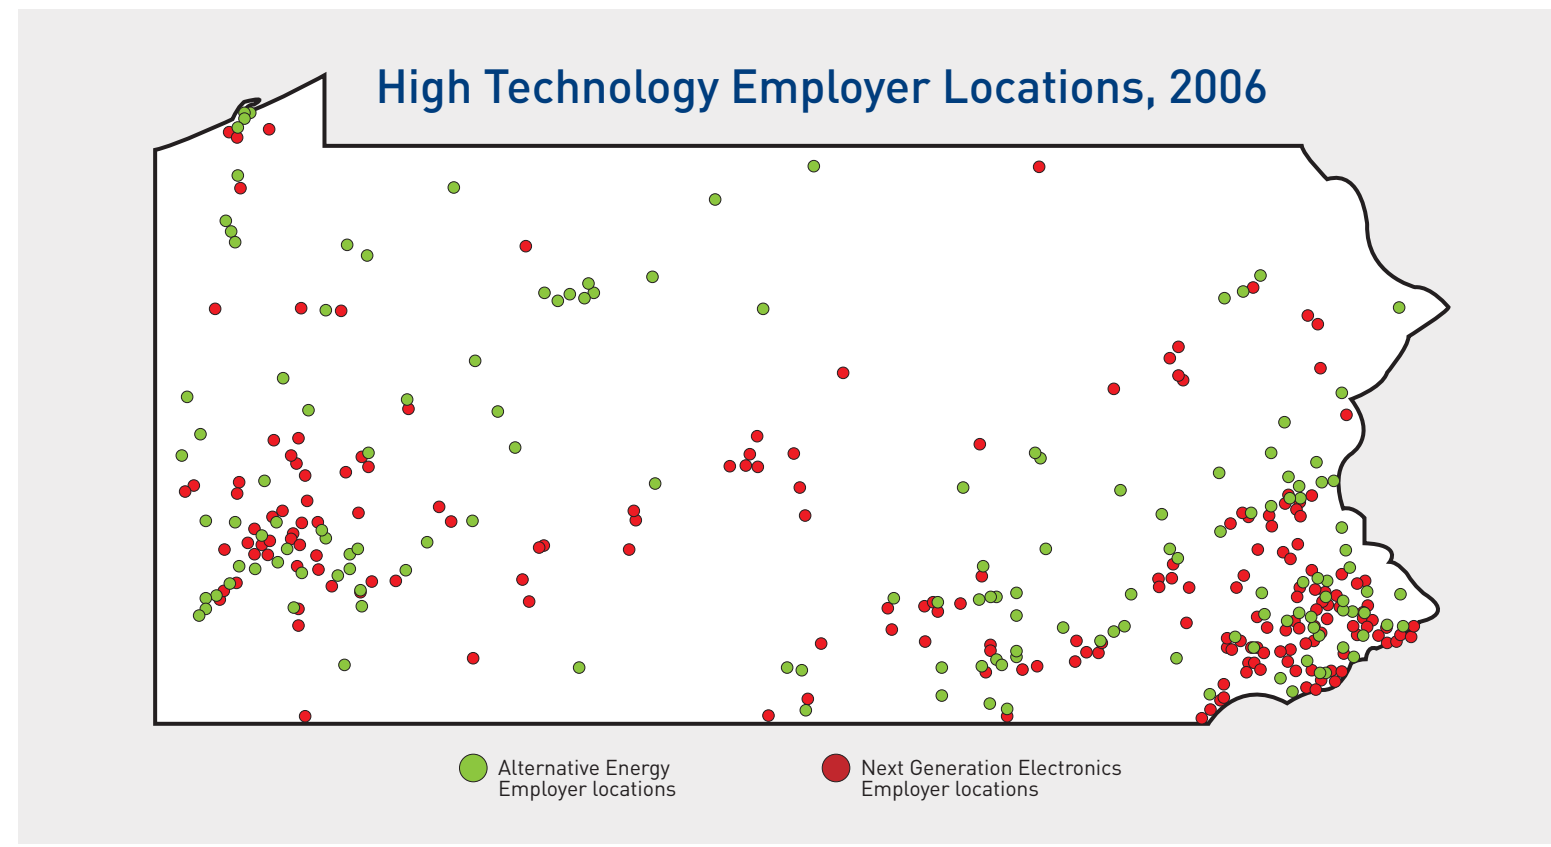

A QUALITY WORKFORCE. AND A WORK ETHIC TO MATCH.

Education is a top priority in Pennsylvania. Eighty-six percent of Pennsylvania adults have earned at least a high school degree and one out of every four has obtained a bachelor's or graduate degree. And according to the National Science Foundation, we're ranked 5th in the nation for the number of doctoral scientists and 7th for the number of doctoral engineers.

THE HIGH TECHNOLOGY INDUSTRY HAS A FAST LANE IN PENNSYLVANIA

The Ben Franklin Technology Development Authority

The BFTDA is a \$50 million state-based technology development program, one of the largest in the nation. BFTDA programs offer financial and technical assistance to businesses, entrepreneurs, communities, local governments, educators and nonprofit organizations. newPA.com
